**NARES, Hilary George, Commander, VRD - Officer - Legion of Merit (USA)** - RCNR / Assistant Naval Attaché - Awarded as per **Canada Gazette** of 30 March 1946 and **London Gazette** of 30 January 1946.

Born and raised in Winnipeg.

Home: Kelowna, British Columbia.

In civilian life, he was the Manager of the Bond Department at the firm Osler, Hammond & Nanton.

Lived with his family at 112 Gerard Street, only three blocks away from the old #5 Fire Hall on Gertrude Avenue where the Winnipeg Company made its home.

His great uncle, Admiral Sir George Nares, was a renowned arctic explorer, who, in 1875, sailed **HMS ALERT** the farthest north of anyone in his day. Today, Nares Strait, which lies between Ellesmere Island and Greenland, marks the apex of his journey.

Joined the **Royal Naval Air Service** in 1915 as a Probationary Flight Sub-Lieutenant.

Earned his wings and became a full Flight Sub-Lieutenant.

Then he was given instruction as to the piloting of seaplanes. His first posting was to the Isle of Grain, located in the estuary of the Thames River, flying anti-submarine patrols in the mouth of the great river.

On 24 December 1916 he was attached to **HMS MANXMAN**, a ferry boat which had been converted into one of the first aircraft carriers in the Royal Navy. The MANXMAN was part of the First Battle Cruiser Squadron which included **HMS LION** and **HMS TIGER** and **HMS MANXMAN**, which displaced 2,048 tons, carried 8 seaplanes and could steam at about 19 knots. But when her boilers got dirty her top speed would drop to near 15 knots. She was always steaming well back of the main force, but she would keep up just the same. Her purpose was to launch and recover seaplanes which would do reconnaissance patrols ahead of the fleet.

While serving in the **HMS MANXMAN**, Lieutenant Nares was ordered to fly in search of German forces that were plying the North Sea. Once airborne, Hilary knew that he wouldn't be able to land back on the ship, as this was not possible at the time. He either had to return to dry land or put it down "in the drink" next to the ship, and hopefully be recovered back onboard. This was typical duty for any naval pilot serving in this time. Hilary Nares thought nothing of going solo with his Sopwith biplane out over a grey sea,

armed with a Colt 45, nary a landing strip in sight, and looking for enemy forces. While flying one particular patrol, in search of a German zeppelin that had been sighted off the coast of Denmark, his luck would run out. He was forced to land his plane in the North Sea when the single engine of his Sopwith caught fire. The plane sank below him and he floated in the cold water for nearly two hours before a British destroyer picked him up. Under the circumstances, he was lucky to be rescued.

After the first war, Hilary returned to Winnipeg, married Hazel Florence Muldrew, and had two sons, Ramsay Arthur Nares (born in 1917) and George "Peter" Nares (born in 1923). Both of his sons would also serve in the Navy.

Joined **Winnipeg Company, RCNVR** on 20 September 1923

Appointed **Commanding Officer** on 31 December 1930 to 1933.

Commanding Officer of the Winnipeg Division again 06 April 1940 to 14 March 1941.

**Assistant Naval Attaché** to USA from March 1942 to August 1942.

**Acting Naval Attaché** from August 1942 to February 1943, at the Canadian Embassy in **Washington**.

**Liaison Officer** to the **US Navy Pacific Command** to the end of the war.

Awarded **RCNVR Officer's Decoration (VRD)** on 17 January 1944 (listed in Gazettes as VD).

Received **Officer, Legion of Merit** award from the US consul at Vancouver for his wartime work with the USN.

After WWII, Hilary lived in Kelowna and Penticton (BC) from 1948 until he passed away in February 1974.

Fennel, Gatineau** and **St. Catherines** in a successful  
operation against a U-Boat."

**HMCS Chaudiere** (River Class Destroyers - H99), **HMCS St. Catherines**, **HMCS Gatineau**, and **HMCS Chilliwack** assisted in sinking **U-744** in mid-Atlantic on 6 March 1944 as described in Chapter 34 of "**The Canadian Naval Chronicle 1939-1945**". **HMCS Gatineau** was about to leave the east-bound convoy because of a distiller defect when it obtained a contact. **HMCS St. Catharines**, the senior ship, carried out a depth charge attack with **HMCS Chilliwack** joining in followed by **HMCS Gatineau**. **HMCS Gatineau** had to break off the attack but **Chilliwack**, **Fennel** and **St. Catherines** stayed right on throughout the action almost from the moment of its first appearance until it finally broke surface. **HMCS Chilliwack** was the first to spot it when it did come up, and closed in a full speed. Soon the other vessels were pouring fire around the U-Boat which was so concentrated that the U-Boat crew never had a chance to man its guns. The first salvo from **Chilliwack's** 4" gun wiped out a twin mounting right off the conning tower and killed the U-Boat captain who was the first to emerge from the hatch. **HMCS Chaudiere** rescued German submariners and the Canadians who were thrown into the water when three of the motorboats and whalers launched to rescue the submariners were overturned in the waves.

**NIXON, Charles Patrick, Acting Lieutenant-Commander - Mention in Despatches (Second) - RCN / HMCS Chaudiere - Awarded as per Canada Gazette of 20 January 1945 and London Gazette of 14 November 1944.**

"For courage and determination in **H.M. Ships Albright, Ashanti, Bellona, Diadem, Mauritius, Onslow, Tartar and Ursa** and **H.M. Canadian Ships Assiniboine, Haida, Iroquois, Qu'Appelle, Restigouche** and **Skeena**, in a series of successful attacks on enemy escorted convoys off the coast of France."

"For services in destroying an enemy submarine on 18-19th August 1944."

**HMCS Chaudiere** (River Class Destroyers - H99), **HMCS Ottawa** (I), and **HMCS Kootenay** sank **U-621** in the Bay of Biscay on 18 August 1944. They also sank a second U-Boat, **U-984** on 20 August 1944 as well. These actions are described in Chapter 49 of "**The Canadian Naval Chronicle 1939 - 1945**".

**NIXON, Charles Patrick, Acting Lieutenant-Commander - Distinguished Service Cross (DSC) - RCN / HMCS Chaudiere - Awarded as per Canada Gazette of 16 June 1945 and London Gazette of 14 June 1945.**

"While in command of **HMCS Chaudiere**, this Officer assisted in the destruction of one U-Boat and the probable destruction of another. During the period May to December 1944, **HMCS Chaudiere** experienced difficult conditions in the English Channel, the Bay of Biscay, and the North Atlantic, when she was handled in a most loyal and efficient manner. Lieutenant-Commander Nixon displayed outstanding coolness and ability in action with enemy submarines, with aircraft, when under fire of shore batteries, and during a bombardment at Concarneau. His leadership, unfailing cheerfulness, outstanding skill and devotion to duty were responsible for a most efficient ship. This Office was awarded a Mention in Dispatches on two different occasions: 18 July 1944 and 5 December 1944."
